

OMAR BARAZE – Senior DevOps & Cloud AWS Engineer (AWS, Kubernetes, CI/CD)

Paris, France | +33 7 55 31 54 00 | mohamdouomar@yahoo.fr

LinkedIn: www.linkedin.com/in/omar-mohamadou-baraze-b9982012

Website: <https://www.obaraze-consulting.com>

Languages: French (native), English – Comfortable working in an English-speaking environment.

Open to relocation within Europe.

Summary

Senior DevOps Engineer with 6+ years of experience in AWS, CI/CD, Infrastructure as Code (IaC), Kubernetes, and automation. Familiar with Python, Bash, JavaScript, and Node.js for building internal tools, optimizing system performance, and automating workflows. Proven experience in incident management, advanced monitoring, high availability systems, and troubleshooting complex infrastructures. Familiar with on-call rotations to ensure service reliability.

KEY SKILLS

- **Cloud & Automation:** AWS (EC2, RDS, S3, EKS, IAM, Step Functions, Glue, SNS, SQS, Lambda, Transit Gateway, Athena, Route 53, ACM, Load Balancer, CloudFront, CloudFormation, SSM, AWS Config Rule, API Gateway, Generative IA...).
- **DevOps & CI/CD:** Kubernetes, Docker, Jenkins, GitLab CI/CD, SonarCloud, Trivy, Terraform, Ansible, SaltStack, Jira, Confluence
- **Cloud Security:** AWS IAM, GuardDuty, WAF, Security Groups, NACL
- **Scripting & Development:** Python, Bash, JavaScript, Node.js
- **Monitoring & Observability:** Prometheus, Grafana, Datadog, CloudWatch, AlertManager
- **Performance Optimization:** Kubernetes scaling, database performance, cloud cost reduction
- **Systems & Networking:** Linux, Windows Server, Active Directory, VPNs, Fortinet, Elasticsearch, Firewalling
- **Incident Management & On-Call:** 24/7 support, troubleshooting, critical issue resolution

PROFESSIONAL EXPERIENCE

Canal Plus, Paris, France — DevOps Engineer | AWS Cloud | CI/CD | Infrastructure (Jan 2024 – Present)

- Acted as the key contact between Dev and Ops teams, ensuring collaboration and incident resolution.
- Reduced deployment times by 40% by optimizing CI/CD pipelines with Jenkins and GitLab.
- Managed CI/CD pipelines (Jenkins, GitLab) and automated deployments with Terraform and SaltStack.
- Conducted performance analysis and monitoring using Datadog.
- Secured network flows with Security Groups and Bastion Host.
- Automated deployment workflows on Kubernetes (EKS) with Helm charts and GitLab CI/CD.
- Participated in on-call rotations to ensure service availability and quick resolution of critical incidents.
- Developed comprehensive technical documentation on Confluence.

Schneider Electric, Paris, France — DevOps & Security Engineer | AWS Cloud (Jun 2023 – Dec 2023)

- Decreased security vulnerabilities by 25% through automated scans with SonarCloud and Trivy. Gype
- Automated CI/CD pipelines with security tests (SonarCloud, Trivy, gype).
- Deployed scalable infrastructure using Terraform and Ansible.
- Modernized pipelines with Kubernetes, Helm charts, and namespace management.
- Conducted security incident analysis and provided advanced technical support.
- Led mentorship sessions for junior engineers on DevOps and IaC best practices.

Dalkia Aegis, EDF Group, Paris, France — DevOps & Monitoring Engineer | AWS (Jan 2022 – May 2023)

- Designed and optimized 24/7 monitoring solutions with Prometheus, Grafana, and Datadog.
- Improved alert accuracy by 30%, reducing false positives.
- Took part in on-call rotations, ensuring rapid incident resolution.
- Automated deployments on Kubernetes using Terraform and Ansible.

Renault, Paris, France — DevOps Engineer | Monitoring & Automation (Jun 2019 – Dec 2021)

- Automated repetitive tasks using Python, reducing execution time significantly.
- Deployed and maintained development, test, and production environments.
- Implemented advanced monitoring solutions with Prometheus, Grafana, and Datadog.
- Developed log collection and analysis scripts.

Bouygues, Paris, France — Network & Systems Administrator (Sept 2018 – Apr 2019)

- Automated network configurations using Python, improving efficiency.
- Maintained and monitored systems with Nagios.
- Secured infrastructures by managing firewalls and VPNs.

EDUCATION

- University of Nice, France – Degree in Telecommunications Systems (2019)
- POEC .NET, ENI School, France – Training in .NET Development (2023)

CERTIFICATIONS

- **AWS Certified DevOps Professional** (*Expected Mar 2025*)
- **AWS Certified Solutions Architect - Associate**
- **AWS Cloud Quest Certifications:**
 - AWS Cloud Quest: **Security**
 - AWS Cloud Quest: **Application Architect**
 - AWS Cloud Quest: **Serverless**

KEY PROJECTS

- **Project MediaHub (Canal plus):** Contributed to platform automation, migration, and video transcoding process monitoring.
- **Project EnergySage (Schneider Electric):** Implemented, deployed, and secured the EnergySage platform on AWS.
- **Project BIM Connect (Dalkia):** Built and secured the infrastructure with full monitoring and automation.
- **Project Lecteur Exécuteur (Renault):** Developed an automated test framework in Python, reducing execution time by 50% and enhancing CI/CD validation processes.

SOFT SKILLS

Incident Response | Agile & Scrum | Site Reliability Engineering (SRE) |
